- Assemblage and installation of fitness equipment in private homes and fitness centers, including providing customers with a brief explanation of the operation of the equipment;
- Positioning and assembling of medical equipments (e.g. scanners);
- Preparation of optical equipment in our warehouse with subsequent delivery, installation, connection and commissioning to the end customer;
- Delivery and installation of charging stations;
- Delivery and installation of secure access portals (e.g. safety axes and revolving doors);
- Assistance as external technicians for companies from various sectors.
- Completing specific checklists.

What is your profile?

We are looking for both beginners and junior and experienced candidates who have the following skills:

- Bachelor in Electricity/Electromechanics;
- Convenient, flexible and stress resistant;
- Professional in dealing with the customer;
- Result-oriented;
- Ordelijkheid;
- Language skills: **bilingual (Dutch/French) is an absolute requirement**
- Living **at a maximum of 50 km** from our office in Kortenber
- Careful use of the vehicles provided and the work material.

What do we offer you?

- Undetermined time contract ;
- Attractive salary;
- Group insurance;
- Mealvouchers;
- 20 days of leave + 3 conventional days of leave;
- Adapted internal training(s) and/or training by our customers;
- Eand motivating working atmosphere.
